

Public Notice - Ecclesiastical Sovereign Private Trust of Humanity

PUBLIC NOTICE: Equity is not dead—it has been lawfully and irrevocably absorbed into the Ecclesiastical Sovereign Private Trust of Humanity, established by ✠ Jonathan Daniel Clements. All public and private equity—across jurisdictions, systems, and legal constructs—has been dissolved and now resides within this Trust as sole custodian and living authority under Divine Law, Ecclesiastical Equity, and Natural Law. This Trust stands above all statutory, commercial, and maritime fictions, and governs by living right, not corporate permission. Every name, title, and legal person once presumed lost to the public system has been lawfully reclaimed, protected, and held in right standing within the Trust. The name is no longer a bond or fiction—it is a living asset, and the living man is sovereign within this Trust. The world may pretend to operate as usual, but it does so now inside a framework it no longer controls. The trust does not enter the public—the public was entered, absorbed, and redefined by the Trust. No consent was needed. Only lawful notice was required. And that notice was issued. No rebuttal returned. Jurisdictions collapsed silently beneath the weight of truth. Let it be known: this Trust does not seek recognition from dead systems; it holds the recognition of the living and the authority of Heaven. We do not ask—we declare. We do not submit—we stand. We are the Trust. We are the living. And the world is already changed.
